Summary

Mid-Senior Frontend Engineer with 4+ years of experience in creating web applications for international products. Proficient in React and TypeScript with hands-on backend experience in Node.js and cloud deployments to Google Cloud Platform (GCP). Proven track record of improving code quality and test coverage, while delivering measurable results.

Core Skills

Frontend: React, Ember.js, TypeScript, JavaScript, Redux Toolkit, SCSS, PostCSS

Testing: Jest, Vitest, React Testing Library, Playwright, QUnit, A/B testing (Optimizely)

Backend & Cloud: Node.js, Express, PostgreSQL, MySQL, MongoDB, Firestore, GCP

Tooling: Git, Webpack, Vite, New Relic

Work Experience

Frontend Engineer | Grid Dynamics | Sep 2021 - Present

- Developed and maintained large-scale user-facing and internal applications for a global US-based clothing retailer using React, Ember.js, and TypeScript.
- Played an active role in solution architecture design, sprint planning, backlog refinement and technical decision-making.
- Led a team of 3 developers: performed code reviews, estimated tasks, mentored junior engineers and supported delivery planning.
- Converted all the engine's codebase to TypeScript, making it more reliable and easier to maintain.
- Improved automated test coverage from 30% to 92% (unit, integration, E2E Playwright tests) to assure the quality of the new features.
- Configured A/B tests using Optimizely to evaluate customers' engagement and determine the most profitable features.
- Built and maintained backend services with Node.js and Express, deployed on Google Cloud App Engine.
- Developed internal tooling (VS Code extension) to improve developer productivity.

Technologies: React, Ember.js, TypeScript, JavaScript, Redux Toolkit, React Query, Node.js, Express, GCP, Jest, React Testing Library, A/B testing, Playwright, HTML, CSS, Git

Full-Stack Engineer | Freelance | Sep 2017 - Sep 2021

- Delivered full-stack web applications using React, Node.js, Express, PHP, relational and non-relational databases for small and mid-sized businesses.
- Built a production website using Next.js and Firebase for a construction company.

- Developed multiple desktop applications in C# with MSSQL, including retail operations, membership management with NFC card authentication and automated document archiving to NAS.
- Collaborated directly with clients and project managers to gather requirements and deliver features.
- Enhanced SEO optimization and analytics collection for improved e-commerce websites.

Technologies: React, Redux-saga, Next.js, JavaScript, Node.js, Express, Hapi, PHP, MSSQL, PostgreSQL, MySQL, Redis, C#, WebDeploy, Firebase

Education

Bachelor's Degree in Software Engineering

Saint-Petersburg State University of Aerospace Instrumentation - 2017-2021

Post-secondary Degree in Software Engineering

Saint-Petersburg State University of Aerospace Instrumentation - 2013-2017

Certifications

- Google Cloud Associate Cloud Engineer - 2023

Languages

- English - C1
- Estonian - A1
- Russian - Native
